

## Hickenlooper Says A.E.C. Violates U.S. Security Provisions

First Witness

Iowan Declares 'Brazen' Actions Carried Out by Group

Mrs. Adelaide B. Lowe (above) was the first government witness in the trial of Alger Hiss, former State Department official, in New York city. Mrs. Lowe was secretary of the federal grand jury investigating subversive activities which indicted Hiss on perjury charges last December.

Washington, June 2 (AP)—Senator Hickenlooper (R-Iowa) today charged the Atomic Energy Commission with violating both "the letter and spirit" of security provisions in the Atomic Energy Act.

Hickenlooper made his accusation when the Senate-House Atomic Energy Committee opened the second day of hearings on the Iowan's charges of "incredible mismanagement" in the A.E.C. Hickenlooper, ranking G.O.P. member of the committee, has asked that A.E.C. Chairman David E. Lilienthal be fired.

Hickenlooper declared there has been "brazen effrontery" in violation of the law by issuing "emergency" clearance for access to secret information. The Atomic Act of 1946, Hickenlooper went on, has specific and "mandatory" requirements for "F.E.I. investigation and clearance of individuals prior to employment on atomic projects. He said the one exception, is that "temporary clearances" may be granted in cases of "genuine emergencies."

He said the commission had abused the right of making emergency clearances by granting \$18 with access to restricted data, and 419 without access to such data in 1947; granting 2,103 emergency clearances in 1948, and 359 emergency clearances thus far in 1949.

"When I think of the evidence which has been presented to the world as to the nature and tactics of the Communist party, it is inconceivable that any responsible government official would authorize such procedures," Hickenlooper said.

Some committee members are talking of calling Maj. Gen. Leslie Groves to answer Lilienthal's assertion that the atomic project was "hogged down" when the commission took over from the military.

Groves was the army officer in charge of the project. This development was reported by a senator who asked not to be named, as the Senate-House Atomic Committee prepared today to hear Chapter II of the "Incredible mismanagement" charges leveled by Senator Hickenlooper (R-Iowa) against Commission Chairman Lilienthal.

The committee gave Hickenlooper half-way backing yesterday in his demand that the atomic agency produce a dozen sets of documents to support his "maladministration" accusation.

Asks Six Points  
The joint congressional group asked Lilienthal and his aides to lay before it:

1. Records of overtime pay for personnel in the commission's Washington headquarters.
2. Security files and local board hearings on a number of persons, not identified publicly, Commission General Manager Carroll L. Wilson said he had ordered two of three persons kept on atomic laboratory payrolls after Adm. John G. Gurnea, the security officer, had held they were "poor risks."
3. The army inventory handed to the commission when it took over the atomic program.
4. All reports and correspondence with the Federal Bureau of Investigation about lost or misplaced fissionable material.
5. Engineering reports on reactor (atomic furnace) sites.
6. F.E.I. reports on the investigation of all persons awarded commission study fellowships. One of these has said publicly he is a member of the Communist party.

The committee didn't go along, however, with Hickenlooper's request for a mass of other documents. Chairman McMahon (D-Conn.), said the Iowa senator was objecting to pig-hoarding these requests.

Included were documents on (1) the custody of atomic weapons, (2) reports of all advisory committees, (3) minutes and reports of the general advisory committee, (4) reports of the military liaison committee, (5) minutes of the commission's meetings and (6) reports of documents on international atomic discussions and agreements.

Thus the scope of Hickenlooper's (Continued on Page 31, Col. 2)

## Lewis, Producers Resume Talks on Coal Mine Contract

Moody Returns to Talks, Claims to Represent Huge Production Interest

Bluefield, W. Va., June 2 (AP)—The Southern Coal Producers Association today resumed contract talks with John L. Lewis with almost as much bargaining strength as ever.

Lewis had forced a week's delay in the start of negotiations challenging the association's right to represent enough southern operators to comply with the S.C.P.A.'s own by-laws.

But Joseph E. Moody came back to the conferences today claiming to represent at least 100 million tons of soft coal production per year. The association was formed in 1941 to bargain for the southern operators. Its by-laws required that any contract negotiated by its officers should be ratified by two-thirds of the board of directors.

That meant that nine of the board's 14 members should ratify any agreement which Lewis and Moody conceivably could negotiate.

Lewis took advantage of some defections last week to call for a one-week delay in the bargaining talks. He said the S.C.P.A. needed the time either to pull itself together or fall to pieces completely.

But Moody, fighting to get the contract talks started well in advance of the expiration of the 1948 agreement June 30, refused to admit that there were major withdrawals by operators.

When he returned to Bluefield he said that there had been no big new defections, despite pressures in Kentucky and elsewhere to split the employer groups.

Lewis has not yet told the operators exactly what he wants this year. Even though he allows (Continued on Page 31, Col. 2)

## Building Permits In City for May Run to \$150,190

Estimated cost of building, alterations and repairs in the city for May, according to permits issued by Fire Chief Joseph L. Murphy, was \$114,401 ahead of the April total, the completed report showed today.

The total in May was \$150,190 as against \$138,789 in April. Chief Murphy issued 43 permits last month and 56 in April.

Permits were issued for three dwellings at an estimated cost of \$26,400, and among permits for non-residential structures were two at \$1,700 for the construction of two "pent-houses" on the Governor Clinton Hotel for improvement of its ventilation system.

Other non-residential permits were for a garage and office building at \$100,000, three private garages at \$750, and a landing platform at \$3,000 for a total of \$105,450. A separate permit was issued for a fire escape at \$575.

Sixteen permits were issued for alterations, additions and repairs on residential structures at an estimated total cost of \$10,300 and nine for similar purposes on non-residential buildings at \$4,465 bringing the total to \$114,765.

Eight permits were issued for oil tanks and burners at an estimated cost of \$3,000.

## Bard Student Is Accident Victim

Tivoli, N. Y., June 2 (AP)—Etham Simon Stavitsky, 19, of (South street) Murray Hill, N. Y., died today of injuries received when the car in which he was riding left the highway and plunged down an embankment near here.

Stavitsky, a student at Bard College in Annandale-on-Hudson, N. Y., suffered a fractured skull and neck injuries. He died at 9 a. m. (E.S.T.) in the Northern Dutchess Health Center at Rhinebeck, N. Y.

The car, driven by a fellow student, plunged from Highway 9-G last night, smashed into a tree and hurtled down an embankment.

## Po'keepsie Rejoins DUSO League in Most Recent Move

Resumption on Schedules to Take Place in Fall of 1950; Quit in 1928

Poughkeepsie High School was returned to the DUSO League family at its own request after an absence of 21 years at the DUSO League Council meeting in Newburgh yesterday, Principal Clarence D. Dumm of Kingston announced last night.

The Blues, who took their famous walk after a stormy football game in Port Jervis in 1928, will resume their place on the DUSO athletic schedules beginning on September 1, 1950.

The unexpected announcement burst like a bombshell on inter-scholastic sports circles in the mid-Hudson area and was hailed as the start of a new era for high school sports in this section.

Principal Dumm said he was happy to announce the completion of negotiations for re-entry of Sam Kalloch's stronghold as the last official of his term as DUSO League Council president. He was succeeded yesterday by Thomas Duffy, principal at Ellenville High.

"I am very much pleased with the turn of events," Dumm said. "It's something I've been waiting for these many years. I feel everything will work out all right, although there are still several difficult problems to be considered and adjusted."

The official DUSO announcement said: "At the annual meeting of the DUSO League held at Newburgh Free Academy on Wednesday, June 1, 1949, a request by Poughkeepsie to be re-admitted to membership in the league was received. "By a vote of the members Poughkeepsie was re-admitted. It was definitely understood that certain contracts for athletic contests between the new member and other schools were in force and should be honored, and that Poughkeepsie would take its place on the various sports schedules beginning September 1, 1950."

This action followed a series of informal conferences between league representatives and officials from Poughkeepsie in which new league regulations were explained. (Continued on Page 9, Col. 1)

## U.N. to Spend 85 Millions To Help Poor Countries

Lake Success, June 2 (AP)—A plan for spending more than \$85,000,000 in two years to put new life into under-developed countries was outlined by the United Nations today.

The plan is the U.N. response to President Truman's call for a bold new program designed to spread technical know-how around the world and raise the standards of living. This program must be approved by the U.N. Economic and Social Council and by the U.N. General Assembly. It is not likely to get under way, even if only partially approved, until early in 1950.

The estimated cost of the technical assistance proposed in a 328-page report issued by U.N. Secretary-General Trygve Lie would be \$35,862,376 the first year and \$50,079,607 the second year.

U.N. planners made no estimate of the cost for succeeding years, but emphasized that any economic program, to be effective, must be figured in decades.

Asked why the program did not add up to a greater figure, officials said the planners "did not want to bite off more than they can chew now."

The money would be raised through voluntary contributions from governments. No country would take part in any phase of the program if it did not so desire.

In his inaugural address, Mr. Truman proposed a program for making benefits of "our scientific advances and industrial progress available for the improvement and growth of under-developed areas."

# Opposition Causes Firm To Drop Bid for Airport

## Palmer Is Fined \$100 By Judge

Washington, June 2 (AP)—Federal Judge Albert L. Reeves today, fined Archibald Palmer, defense attorney in Judith Coplon's espionage trial, \$100 for "obvious contemptuous conduct."

It was the second such fine levied against the fast-talking New York attorney since the start of the trial April 25.

As in the case of the earlier contempt penalty, Judge Reeves stipulated that the fine be paid after the end of the trial.

Today's fine grew out of Palmer's persistent questioning of T. Scott Miller, Jr., an F.B.I. agent. Palmer was questioning Miller about 12 papers found in Miss Coplon's purse when she was arrested in New York March 4 with Valentine A. Gubitchev, a Russian.

The government introduced numerous other papers from the handbag as evidence but John M. Kelley, Jr., a government prosecutor, said the 12 were limited "on the grounds of the security of the United States."

Palmer asked Miller if he personally selected the 12 papers not put in evidence. The F.B.I. agent replied that he had nothing to do with determining what was to be used in the case.

Kelley objected to further questioning along this line and Judge Reeves upheld him. Palmer, however, kept asking substantially the same questions, and Judge Reeves kept sustaining Kelley's objections.

Palmer started to say something about Judge Reeves' realizing "the importance of his questions 'to the country's future' but Judge Reeves cut him off."

"Mr. Palmer, I must fine you again," Palmer, obviously taken by surprise, had less to say than usual. He told Judge Reeves that he had not yet received a formal order on the first fine, and asked that such orders be prepared in both cases. The judge assured him that this will be done.

"I want to take an appeal on both fines," Palmer said. The defense lawyer, having lost an effort to keep any of the papers from getting into the trial, was trying to get them all in. Judge Reeves allowed him to ask Miller about existence of the 12 wild held, but not about their contents.

Palmer brought out in his questioning of Miller that all of the papers withheld by the government were so-called data slips. These were short sheets of paper used by the foreign agents registration section of the Justice Department to summarize F.B.I. reports relating to internal security matters and to suspected espionage agents in this country.

Miss Coplon worked in this section as a political analyst, until her suspension following her arrest in New York March 4 with Valentine A. Gubitchev, a Russian. (Continued on Page 32, Col. 7)

## Bridges Calls Suggestion Of Pay Cut 'Ridiculous'

### Poughkeepsie Man Held as Kidnap

Michael Mario Turk, 25, Unemployed, Charged by Social Worker

Poughkeepsie, N. Y., June 2 (AP)—Michael Mario Turk, 25, unemployed, was arrested today on a charge of kidnapping a social worker who had attempted to obtain work for him.

The complaint, signed by Detective William J. Owens, charged that he kidnapped Miss Alma Grace Eaton, 35, home service secretary of the Dutchess county chapter, American Red Cross.

Owens gave this account of events leading to the arrest: As Miss Eaton was entering her automobile yesterday afternoon, Turk walked to the car, displayed what proved to be a toy pistol and ordered the woman to drive him to Albany. He told her the pistol was loaded with seven bullets.

At one point he accompanied Miss Eaton to a telephone to permit her to call friends and inform them she would not be home for dinner.

Owens and another detective cruising in a police car found Miss Eaton's car in the north end of Poughkeepsie early today. Owens said the woman was crying and fighting with Turk. After getting Miss Eaton's story, Owens arrested Turk.

Miss Eaton was attended by a physician and went home. Miss Eaton, a native of Jefferson, Pa., was a Presbyterian missionary in Japan for 10 years, and spent five years as a social worker in the Department of Public Assistance in Monongahela, Pa. She came to Poughkeepsie in 1945.

## New Hampshire Senator Says Congress Should Stay on Job Long as Necessary

Washington, June 2 (AP)—Senator Bridges (R-N.H.), one of the leaders of the current economy drive, branded as "ridiculous" today a suggestion that congressmen take a 5 per cent pay cut to help cut government costs.

At the same time Bridges agreed with Senator McCarthy (R-Wis.) that Congress should remain in session "until Christmas, if necessary," to consider \$3,000,000,000 of savings in government costs proposed by former President Hoover.

Bridges, former chairman of the Senate Appropriations Committee, testified before the Senate Expenditures Committee in support of a resolution that would direct President Truman to balance the budget.

"It is my sincere conviction that the need for economy is greater today than at any time since I have been a member of the United States Senate," he said.

He said Congress can do one of four things— "increase taxes, encourage deficit financing, simply drift along with the tide, or cut expenditures to the level of estimated revenues."

"There is not a department or agency—with proper management at the top—that could not absorb some small percentage cut without impairing efficiency or cutting salaries," Bridges said.

Chairman McClellan (D-Ark.) of the Expenditures Committee, considering the economy proposals broke in to say no witness had urged such economy moves as "a pay reduction."

Bridges said press reports indicated (Continued on Page 30, Col. 2)

## Consumers Will Pay Increase Allowed by P.S.C. for Gas

Minor changes in the cost of gas to consumers will result from a recent decision by the Public Service Commission, the Central Hudson Gas & Electric Corp. announced today.

The P.S.C., the company said, has reached a final decision in the gas rate proceedings started by the company on May 13, 1947, and the adjustment in rates authorized "will eliminate operating losses and allow a small return on the money invested in the company's gas business."

The house heating "step in the company's gas rate schedule will remain unchanged, the maximum monthly increase for residential gas-cooking will be 22 cents, and the maximum monthly increase for both cooking and water heating will be 68 cents."

The report said "The adjusted rates will go into effect about June 6 and are expected to remain at this adjusted level unless the former general inflationary trend in price levels is resumed."

Commenting on the Public Service Commission's decision, Ernest R. Acker, Central Hudson's president, said: "This final arrangement is satisfactory to the company under present-day conditions. It will convert the recent losses in our gas business into a small return which we hope to increase by use of new equipment, new techniques, economies, and constantly improved efficiency."

"During recent years, all prices have moved upward to a new level. Naturally, as a buyer of materials and labor, Central Hudson has had to move its prices up to that level, too. But I think that it is safe to say that unless there is further inflation Central Hudson can maintain this new adjusted rate for a considerable period of time. In fact, if we can procure a supply of natural gas for our franchise area it may permit, eventually, as actual reduction in Central Hudson's gas rates."

## Disruption Grows Over Limitation of Veto Power in Council

Paris, June 2 (AP)—The western powers and Russia still were at odds today over reviving the four-power Kommandatura for Berlin, though agreed in principle that the divided city should be united under a single governing body.

Yesterday they split on a western proposal to limit exercise of the veto power in the four-power body. Today the western ministers weighed a vague Soviet hint that the Russians might agree to trim the Kommandatura's area of authority.

Western representatives at the Foreign Ministers Conference—spearheaded by U. S. Secretary of State Dean Acheson—insisted firmly on modification of the old rule that all decisions of the Kommandatura must be unanimous agreement. This rule, in effect, turned each of the four members with veto power.

Acheson's British Foreign Secretary Ernest Bevin and French Foreign Minister Robert Schuman urged that unanimity be required only for major issues. They proposed that majority rule be adopted for secondary decisions.

Russian Foreign Minister Andrei Vishinsky insisted that the Kommandatura retain unanimity rule. At yesterday's meeting, however, according to French sources, Vishinsky said the Kommandatura's functions might be re-examined.

His statement was interpreted to mean that some authority might be withdrawn from the Kommandatura and delegated to local German administration. It followed Acheson's statement that he saw no reason why such things as garbage collection, water supply and street cleaning should become matters of international debate.

Vishinsky was expected to elaborate today on the powers which Russia thinks can safely be taken from the Kommandatura.

A clash between Acheson and Vishinsky developed yesterday when the Soviet minister declared the western powers were in Berlin only because of international agreements at Potsdam.

Acheson declared that in the west's view, the Americans, British and French were in Berlin because their armies had participated in a joint victory over the Nazis.

Schuman, opening discussion on the Berlin situation, said the (Continued on Page 32, Col. 5)

## DeGasperi Is To Expand His B'way Store

John A. DeGasperi, proprietor of the Governor Clinton Market at 773 Broadway, has purchased the adjoining building at 775 Broadway from A. Faluotico and will raise the present frame structure and erect a modern building, which will be incorporated in the present market to give additional space for his grocery and meat market.

The building which Mr. DeGasperi has just acquired was known as the Ellison building and for many years was occupied by a jewelry and watch repair business. It was owned by William Williams and of late by H. Decker for the same business.

Some time ago the building was acquired from Bessie Ellison by Mr. Faluotico who has sold to Mr. DeGasperi.

In announcing the purchase of the property today, Mr. DeGasperi said he had acquired the property in order to enlarge his store to accommodate increased business. It is his plan to demolish the present frame building and erect a new and modern structure on the site as soon as possible.

## Haver Says Hostility Is Short View

Attorney for Eastern Corporation Says He Regrets Pay Roll Lost to Shawangunk Plant Is Reason

Opponents Base Their Objection on Chemical Factory

Eastern Flight Corporation and Eastern Industries Corporation, Passaic, N. J., withdrew its offer to lease the 700 acre county owned Galeville airport last evening when opposition developed among residents of that area in the town of Shawangunk.

The action of Howard H. Menthe, president of the corporation, was taken at the public hearing at the court house which had been called by the Board of Supervisors pursuant to the Town Law provisions, when a dozen residents of the area protested that a chemical plant would be objectionable.

The two corporations had offered to lease the big 700-acre wartime constructed airport for the purpose of using the center portion, which contains several concrete runways for airport purposes, and the two adjoining portions for commercial purposes. A 10-year lease at \$250 a year was offered for the airport facilities. The balance of the property would have been leased for 25 years with the county being paid 80 per cent of the income from the acreage and 80 per cent of the income from crops.

Manufacturing Planned  
Eastern had planned to erect a \$40,000 building for the manufacture of soaps, resins and adhesives and would have employed local people. The airport, under C.A.A. approval, would have been open to the public as well as used by the corporation in its business which enters to the acroplane industry by supplying certain products.

The meeting was late in getting started when Chairman Cluett Schantz met with motor trouble on the road and County Attorney Fred Stang convened the meeting and asked for election of a temporary chairman. Supervisor Howard C. Anderson was named temporary chairman and the public hearing opened. Chairman Schantz later arrived and took over the chair.

After the purpose of the public hearing had been explained by Mr. Stang he pointed out that the Eastern Flight Corporation and Eastern Industries Corporation had submitted a bid for the facilities which the county had acquired for \$1 from the government.

Known as Auxiliary Field No. 2, or Galeville airport, the facilities were a part of the army air field chain which was built during the war as a part of Stewart Field. Since the war the field has not been used for airport purposes. Last year the field was rented by the county to Borden for the hay, and pasture.

Proposition Was Asked  
Stang said the county after acquiring the field had invited people to southern Ulster to make a proposition. Three offers had been made, one from New Paltz, one from Gardiner and one other but no one was interested in leasing so large a proposition. Approval of any lease of the airport section must be secured from the C.A.A. and War Assets Administration and the field reverts back to the government together with any buildings erected thereon in case of an emergency.

For the present purpose the airport was divided into three parcels, Parcel A, the center field on which are located the cement landing strips; Parcel B, to the west and Parcel C, to the east along River Road.

Since the center portion was to be retained as an airport and kept open to the public, under the county law a public hearing on the proposed lease was called. The county could negotiate a lease on the other portions without a public hearing since they were not to be used by the public.

Supervisor David Stewart of Shawangunk questioned the use of the field asking if it was being leased just as an airport.

Stang explained the center strip was being leased for airport purposes and the balance for commercial purposes. The present public hearing was being held in connection (Continued on Page 32, Col. 2)

tion in Queens and who knew the general on the staff.

"The general agreed to turn over to Soviet agents all the material relating to Christie tanks, and did so, which was why the foreign representatives were surprised to see these rather American-looking tanks that paraded during one of the celebrations in Red Square. The general was also a heavy-drinking man, I understand, and during prohibition they used to smuggle liquor—that Russian agent had to smuggle liquor into the country, to keep the general supplied. That was done through the same couriers as the communications. Somewhere, I heard that the general died in the '30's but I gather that he had practically mechanized the Red army. The deal in London was that, in return for the general's services, the Russian Government would send two submarines with arms to the west coast of Ireland for the Irish Republican Army. The missing connection, perhaps, is that the general was an Irish patriot or in touch with them and he has been quoted to me as saying he was doing it for the sake of Ireland but if he thought he was doing it for those dirty Communists or dirty Russians, he would never do it, which is probably the best evidence you need that he knew what he was doing. When the submarines failed to show up, two of these I.R.A. (Irish Republican Army) boys appeared in Rosenblytt's office and threatened his life, but he managed to talk them out of it."

Chambers said that Adolf Hitler, not F. D. Roosevelt or any underling of his administration, finally frustrated the Russian spies in the United States, although only for a short time. He said that within about two weeks after he came to power, Hitler completely destroyed the communications system of the Russian espionage operating out of Germany on German ships. "The Russian apparatus in the United States was actually cut off in that period," Chambers said.

## Public Works Planned For German Problem

Frankfurt, Germany, June 2, (AP)—American officials today disclosed plans to fight western Germany's serious unemployment problem with public works projects.

"With 1,200,000 jobless and the number growing monthly, western Germany may face an unemployment crisis unless something is done," these officials said.

They expressed the hope that projects such as housing and power developments, which shoot money into the economy, might foster a general economic expansion.

German authorities have been

asked to prepare a list of projects. The Economic Cooperation Administration Mission to Germany has agreed to finance "worthy" projects with counterpart funds. The counterpart fund is made up by an E.R.P. requirement that a sum equivalent to the dollar value of E.R.P. goods sent to Germany be set aside in marks.

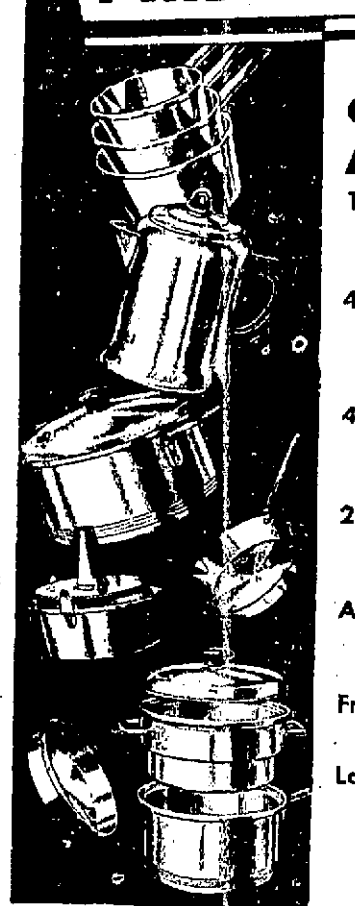

The fund, which now totals 420,000,000 marks (\$140,000,000), can be used only with permission of American authorities.

Norman Collison, chief E.C.A. official in Germany, and military government leaders also are reported considering other moves to brake the continued rise in unemployment.

The total of 1,200,000 jobless represents about nine per cent of western Germany's labor force.

**Tornadoes Strike Again**

Chicago, June 2 (AP)—Fourteen persons were injured and several farm homes were destroyed yesterday as tornadoes skipped over areas in four midwest states. The small twisters hit rural areas of southwestern Iowa, northwestern Missouri, northeastern Kansas and southeastern Nebraska. Eleven persons in the vicinity of Tarkio, Mo., were injured, while the twister which hit near Essex, Ia.,

injured a family of three. The tornado winds followed thunderstorms over midwest states yesterday.

**Will Unveil Monument**

A monument for the late Dr. Philip P. Polcy, county veterinarian, and meat inspector, will be unveiled Sunday at 2 p. m. in Montrose Cemetery. Rabbi Herbert I. Bloom of Temple Emanuel will conduct the religious services.

**Applications Are Sought**

Albany, N. Y., June 2 (AP)—The state adjutant general today urged qualified veterans of the New York National Guard and naval militia to apply for federal retirement benefits before June 30. Brig. Gen. Arnes T. Brown said that until June 30 retirement payments would be made retroactive to eligible veterans who reached 60 before December 31, 1948. After June 30, payments will be made only from the first day of

the month following approval of the retirement application, he said.

**Leftover Ham**

To stretch a small amount of

leftover ham mix it with cooked elbow macaroni and a cheese sauce for a supper dish. Or use the ham for luncheon sandwiches by grinding it with American cheese and seasoning the mixture with sweet pickle relish and mayonnaise.

Sick Men (as the nurse let him sit up for the first time)—Gee! I wouldn't let them operate on me again for a million dollars.

Just then the doctor came along, with a worried look on his face:

Doctor—I'm sorry, but I'll have to open you again.

Sick Man (letting out a roar)—Nothing doing! I won't stand for it!

Doctor (targuing)—But, it's something that just has to be done. You see, a terrible mistake was made. When I sewed you up I left one of my rubber gloves inside of you.

The patient was incredulous.

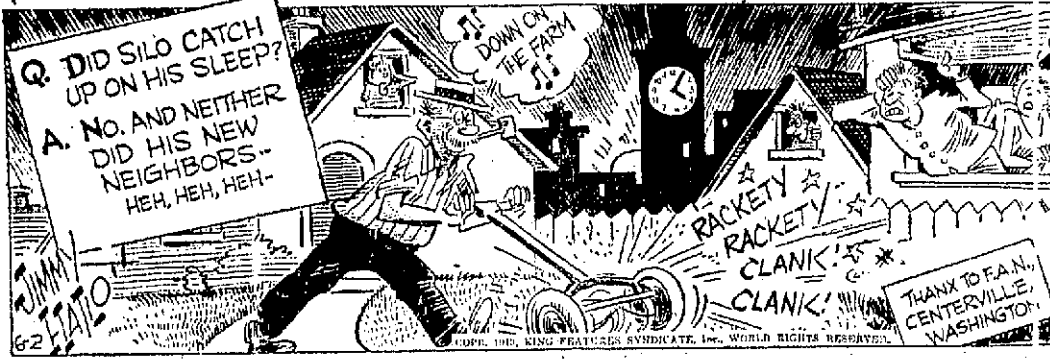

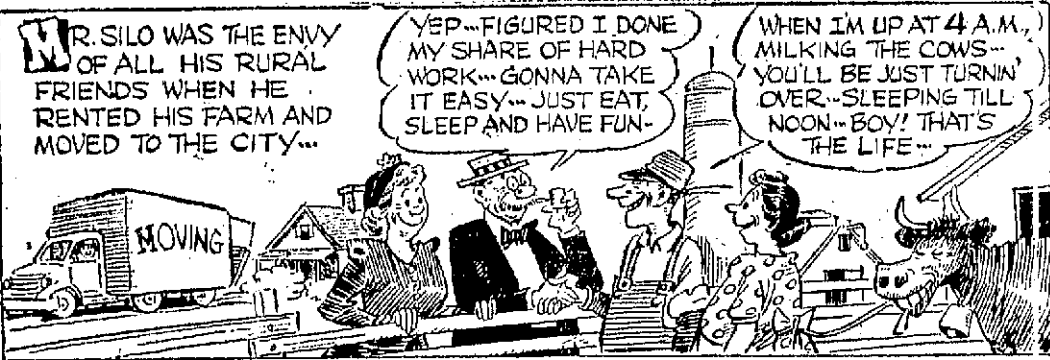

Sick Man—Is that why you want to open me again?

Doctor—Yes.

Sick Man (sighing)—Don't be silly. Here's a dollar—go out and get yourself another rubber glove.

## Po'keepsie Rejoins

plained and athletic facilities in Poughkeepsie were discussed.

"Poughkeepsie was one of the original members of the DUSO League when it was founded 26 years ago."

The committee referred to in the official bulletin included Dummi, Carl Warren of Middletown, and Ken Somerville of Monticello. The committee was appointed to open negotiations with Poughkeepsie several months ago when widespread criticism of the DUSO's round robin football schedule forced DUSO officials to consider possible expansion of the league to overcome schedule difficulties.

Several informal meetings were held between the DUSO's committee and Poughkeepsie High representatives but only fair progress was achieved until developments moved swiftly in the last few days.

It appeared unlikely that Poughkeepsie would re-enter the league before the 1951-52 season, if then.

The first wedge in the ancient stalemate as to whether Poughkeepsie should be invited by the DUSO or Poughkeepsie should make formal application as a new member seeking a franchise came early in December, 1948, in the form of a letter from Sam J. Kallioch, Poughkeepsie athletic director.

At that time, Poughkeepsie High was an "old member" of the DUSO League. Kallioch informed the DUSO Council that Poughkeepsie would entertain an invitation to return to the league. Negotiations followed with the eventual result that Poughkeepsie High was urged to make application through the regular channels.

Poughkeepsie was not represented at the DUSO meeting in Newburgh but the correspondence on which action by the DUSO was based was read to the members by Dummi.

The "regulations" and "athletic facilities" which are mentioned in the official DUSO statement refer to the Poughkeepsie football and basketball teams. DUSO League schools have long expressed dissatisfaction with the condition of the Poughkeepsie football field and basketball court.

Dummi said he was confident that these obstacles could be overcome and details would be worked out through reasonable discussion between Poughkeepsie representatives and the DUSO Council.

Another point to be adjusted is the matter of Poughkeepsie's athletic schedules. Under its present setup, the DUSO operates a regular schedule in all major sports between its Jayvee teams. Coach Kallioch does not field junior varsities in any sport.

Furthermore, the Poughkeepsie Board of Education has refused to sanction night football games for the Blues.

## Expect to Settle Problems

"These are normal problems that should be ironed out to the complete satisfaction of all parties concerned," Dummi said. "They may require a couple of years for achievement but the important thing right now is that Poughkeepsie is back in the DUSO League and we're all happy about it."

The K.H.S. principal also revealed that Beacon High yesterday made informal application for admission to the DUSO League for football in 1950.

When Poughkeepsie left the DUSO League it was announced that the Blues were dropping organized schedules in order to develop an intensive intramural athletic program which would serve most of the students at Poughkeepsie High.

return to the DUSO has been kicked about down through the years.

The crux of the ancient squabble was primarily that of "having face." Poughkeepsie has always maintained that it was an old member and should have been invited back to the family. The DUSO was equally insistent that the Blues had walked out of their own volition and should make application for reinstatement.

Kingston High School, with the exception of the war years, has maintained athletic relations with Poughkeepsie High down through the years.

## THE RUMINATOR

A Column of Contrary Opinion  
By HUMPHREY B. NEILL

The stock market becomes news when it advances vigorously—or when it reaches a level previously thought critical.

Otherwise, the public is quick to lose interest, particularly when stock prices are dropping or are fluctuating aimlessly.

This past week stock prices sagged until the market (as reflected in the Dow-Jones averages) reached the February low area. As a result of the slow drop in prices the question of whether the market will continue to fall has become of general interest.

There are several obvious reasons why one might contend that the stock market will decline, perhaps sharply.

Business is still sluggish, the spring recovery having been disappointing thus far. It is generally believed that there will be a further drop in activity prior to any improvement.

Prices of many commodities and products are on the "downward" side. Deflation, not inflation, is the talk of the moment.

Profits are expected to shrink, inventories are thought to be high. Costs, likewise, are high, and with selling prices falling, the break-even points (between profit and loss) are becoming a business worry.

From a psychological aspect, the public is recession-minded. This applies to business, as well.

From these considerations, the logical result of current business and price conditions would be to influence lower stock prices.

However, the market seldom follows an obvious, or logical, course. More often than not, instead, usually, the market acts opposite to what is generally expected, or the long run.

It is because of this contrariness of the stock market that this writer has found "contrary opinion" to be more dependable than one's personal judgment, and usually more reliable guides than professional forecasts.

In addition to the bullish business factors, technical market indications appear also to be on the side of further market declines.

The short interest in the market is larger than it has been in many years. Speculators only sell short when they expect declining prices, of course. The public's attitude, from all observations, seems equally bearish. The majority of professional advisers apparently are negative in their advice. This adds to public pessimism. Brokerage opinion, is perhaps, more evenly divided; although, here too, the comments as published in newspapers are not very optimistic.

From both business and market findings an unusually strong case is therefore being formulated for the theory of "being contrary." The contrary viewpoint, it is obvious, argues against a serious decline in the market. (It should be added that the contrary theory is seldom of value in forecasting minor swings, or short-run movements. Its usefulness lies in appraising the longer future.)

The "time element" tends to support the contrary viewpoint at this particular juncture. The stock market has retreated six times in the past three years, to the ten-point areas of 161-171 in the Dow-Jones industrial stock index. The market failed to boom along with business in 1947 and 1948; it has failed likewise to break when inflation shifted to deflation. Particularly, the stock market has apparently been waiting out business to see what the future holds in store.

The stock market, therefore, has taken plenty of time to look things over. It has had time to absorb bad news and to estimate what lies ahead. There is little other than the outcome of the meeting of the Foreign Ministers in Paris, which would be likely to "surprise" the market. The chances are that the Paris conference has also been discounted from a rather negative angle.

Only lively surprise would be a better-than-expected outcome from the meeting in Paris.

In sum, while general opinions of prevailing conditions give weight to arguments for the stock market to sink to new lows, the contrary theory argues against this pessimistic viewpoint.

## New Rule Would Remove Absent C. of C. Directors

A proposed amendment to the by-laws, which would cause a vacancy to be declared on the board of directors whenever a director missed three consecutive meetings without reasonable excuse, will be voted upon by members of the Kingston Chamber of Commerce at the membership meeting June 14. It was announced today by President Robert E. Teetsel.

The amendment, which if approved by the membership will become section nine of Article IV reads, "Any director absent from three consecutive meetings, without a reasonable excuse, concedes his inability to serve. His office as

director shall thereupon be declared vacant and a successor named to fill the unexpired term." The proposal has been recommended by the board of directors. Other matters on the program for the meeting include reports from officers and committee chairmen. Those giving reports will be President Teetsel, reporting for the board of directors; Paul Boice, on relations and special events; A. P. Modjeska, brochure; Walter Donnaruma, community improvement; Raymond McAndrew, conventions; J. N. Ashton, local industry promotion; James P. Byrne, labor relations; L. J. MacAvery, membership; Gordon Peterson, retail merchants division; and Harry Gold, traffic and transportation.

The meeting will be held in the Crystal Room of the Governor Clinton Hotel at 8:15 p. m., June 14.

## Bridges Calls . . .

ate that Senator Tydings (D-Md.), author of another proposal for cutting government costs, has suggested congressmen take a 5 per cent pay cut.

"I disagree with Senator Tydings," Bridges said emphatically. "I think it's ridiculous to ask that Congress take a 5 per cent cut in salaries. The cost of Congress is a very minor item and beside the point."

McClellan said Tydings may have been misunderstood—that his suggestion was that Congress should reduce its own costs 5 per cent. McClellan said this could be done without cutting salaries.

McCarthy noted that the Commission on Government Reorganization under former President Hoover had made scores of suggestions for "clearing house and doing away with the waste and debris" in present overlapping government agencies.

He asked Bridges if he thought Congress should stay in session—instead of adjourning next month—until all the Hoover proposals have been considered.

"I do," Bridges replied. Earlier Frederick J. Lawton, assistant director of the budget, told McClellan that no revised estimates of government income and spending for the next fiscal year are available.

McClellan pointed out that the budget estimates were made last December 15 and conditions have changed considerably. He noted the estimates indicate a deficit of nearly \$900,000,000.

Lawton said that until Congress completes work on all appropriations and upon President Truman's suggestions for \$400,000,000 new taxes and higher postal rates, no official revision is planned.

Senators pushing the economy drive had little to say about a veterans pension bill passed overwhelmingly by the House.

## Bulk of Forrestal Estate Goes to Wife

New York, June 2 (AP)—The late Secretary of Defense James V. Forrestal left the bulk of his residuary estate in trust for his wife and two sons, filing of his will in surrogate's court revealed yesterday.

Forrestal plunged to his death from the 16th floor of the Naval Hospital at Bethesda, Md., on May 22.

Although the estate was valued for probate purposes at "more than \$25,000 in personal property and more than \$5,000 in real property," the will disposed of more than \$500,000. It is dated January 14, 1932.

Forrestal asked a \$500,000 trust fund be set up with life income to be paid his wife, Mrs. Josephine O'Brien Forrestal of Washington, D. C. Upon her death, the testament directed, income is to be paid their children, Michael and Peter, with the principal eventually going to the children.

Other bequests included: \$25,000 each to two brothers, H. L. A. and William Forrestal, both of Beacon, N. Y.; \$10,000 to Paul M. Striefler, New York, not otherwise identified; and \$5,000 to Miss Mary McGirr, his secretary.

The will directed that residuary estate be added to the trust created for his widow, Clarence Dillon of Far Hills, N. J., and the New York Trust Company were named as executors.

## Meter Collections Are Below April

Parking meter collections for May totaled \$3,230 and were \$157 below the April total, the completed report at the city treasurer's office showed today.

The total collected to date this year is \$15,434, which is \$2,359 ahead of the total for the first five months last year.

The drop in collections during May this year, although there is no way of indicating it definitely, was probably due to the reconstruction of Wall street. May collections a year ago were \$49 above those in April.

Meter collections last year during the spring and summer months were also reduced because of the reconstruction of North Front street.

William C. Schryver, 254 Albany avenue, is reported improving at the Kingston Hospital following an operation performed May 27.

## Supervisors Hold Short Meeting on Wednesday

A very brief meeting of the Board of Supervisors was held Wednesday evening following the public hearing on the proposal to lease the Galeville airport.

Roland H. Green was recommended by County Superintendent of Highways James P. Loughran for re-appointment to the position of deputy county superintendent of highways for one year from June 9, 1949. The board voted the re-appointment and fixed the salary at \$2,100 an hour.

The sum of \$500 was voted transferred from the surplus fund to the rabies fund and the rabies emergency was extended to March 1, 1950 and the county treasurer was authorized to make payments from the rabies fund for that period.

There was transferred from the surplus fund the sum of \$3,000 to the crippled children account. The board adjourned subject to the call of the chair.

Will Use German Marks

Berlin, June 2 (AP)—The U. S. Army announced today that for business and travelers will live on the German economy, using German marks, after June 21 in the American, British and French zones. The decision virtually turns the tourist trade over to the Germans. A half million visitors are expected in Germany this year. After the June 21 date, visitors will exchange their dollars for German marks.

Swiss francs, British pounds, Netherlands guilders and Belgian francs, for German marks worth 30 cents. They will buy their food in German restaurants, ride German trains, live in German hotels. Army post exchange privileges—cigarettes, personal supplies and other items—will be withdrawn.

Points Out Hiss

New York, June 2 (AP)—Whittaker Chambers, self-styled former courier for a Soviet spy ring, pointed at Alger Hiss in a crowded federal courtroom today and said he first met him early in 1934.

Resuming the witness stand at the perjury trial of the former State Department official, Chambers said he was introduced by "Harold Ware and J. Peters."

Hiss, 44, is accused of lying when he denied before a federal grand jury that he ever turned over State Department secrets to Chambers. Assistant U. S. Attorney Thomas F. Murphy asked Chambers if he saw Hiss in court. Chambers pointed to Hiss who sat with his wife in the front row of the federal courtroom.

May Not Make Trip

Washington, June 2 (AP)—President Truman said today that a cross country stumping tour in behalf of his program may not be necessary. He told a news conference that the idea of such a trip has been put on the shelf for the time being. Asked by a reporter if it was possible that the trip might not be necessary, the President replied it was very possible. He would not comment on the possibility of such a trip next year, telling reporters that would be looking too far into the future.

Awaits Word From Calder

Washington, June 2 (AP)—President Truman apparently is still awaiting word from Curtis E. Calder on whether he will accept appointment as secretary of the army. Secretary of Defense Johnson has been trying to get Calder, New York and Texas utilities executive, to take the job. Mr. Truman was asked at a news conference today if the army post was still being held open for Calder. He replied that he supposed so—that there has been no change.

Action Is Completed

Hartford, Conn., June 2 (AP)—The Connecticut General Assembly completed action today on a bill naming a road in honor of the family of Secretary of State Dean Acheson. Acheson Parkway, as the road will be known, is being built along the Connecticut river in Middletown, where Secretary Acheson's mother lives.

Called Mighty as A-Bomb

Norfolk, Va. (AP)—The United States' "chow line" is "as great a military weapon as the atomic bomb ever will be," according to Dr. Berton S. Clark. The re-elected president of the Associates of the Quartermaster Food and Container Institute says this country's ability to feed vast overseas armies was one of its decisive weapons in World War II. "A-bombs or A-bombs," says Dr. Clark, who is research director of the American Can Company, "the millions of men fighting in distant points of the world still have to be fed."

Preaches From Bed

Johnson City, Ill. (AP)—The Rev. R. E. Walston refused to stop preaching because a bad heart sen him to bed. The 64-year-old pastor, confined to his bed for 30 days because of a heart ailment, answered the church bell with his usual sermon. A public address system was installed from his bed to the Johnson City Church. "It's our own idea," said Mrs. Walston. "We own the public address system and a couple of men around town fixed it up."

**Stollar Pleads Innocent**  
New York, June 2 (AP)—Norton Stollar, 33, head of the Stollar Construction Corporation, has pleaded innocent to larceny charges in connection with Long Island real estate operations. After his plea, General Sessions Judge James C. Wallace yesterday set bail at \$2,500. No trial date was set. Stollar is charged with petit and grand larceny in the amount of \$3,749. District Attorney Frank S. Hogan said Stollar received \$40,000 in down payments for homes from April to September last year, but only four homes were completed. Stollar allegedly gave bad checks to contractors, and accepted payments from Ernest Calbra, of Brooklyn, to build a Huntington, N. Y., home, without fulfilling the commitments.

BY WILLIAM E. McKENNEY  
America's Card Authority  
Written for NEA Service

Just recently some friends of ours were leaving their homes for a vacation. The man saw to it that he had his fishing reel, some cash and his old clothes. Then he sat in the front seat of the car wondering why the delay, but his wife, she made sure there was no milk left in the icebox to sour. Her plants had been left with the neighbors, and she even checked up on the stoppers in the bathroom and kitchen sink.

One evening when I was playing bridge I compared that little demonstration to today's hand. I think that South's bid was a little bold, but then women like to bid and take chances, and if they go down, that is just one they missed. However, had this young lady who played today's hand been as meticulous about counting her tricks and checking up on the different possibilities, as the young woman I had seen leaving for her vacation, she would have made her contract.

Let her win the first trick with the king of clubs, but now she should stop and think. She can take the spade finesse, but why not leave that until last. Supposing she leads the ten of diamonds and overtakes it with the jack in dummy. Ruff a small heart with the ace of diamonds. Lead the eight of diamonds, overtake with the nine spot in dummy, and all the diamonds have been picked up.

Let her cash the ace and king of hearts, discarding two spades. When the ten of hearts falls, she now has reason to believe that the suit will break. She should now ruff a small heart with the six of diamonds. Play the deuce of diamonds and overtake with the three spot in dummy and the queen of spades can be discarded on the good heart.

**Making Fudge**

When your youngsters make fudge, suggest that they put it over low heat at the beginning and stir constantly until every grain of sugar is dissolved. This careful dissolution of the sugar is one of the secrets of making creamy fudge.

**OLIVE BRIDGE**  
Olive Bridge, June 2—Tribute to veterans of World War 1 and 2 was paid by the Olive Post of the American Legion on Memorial Day. Members of the Post were joined by Boy and Girl Scouts who marched to the church grounds where a fitting program took place. The program was under the direction of Commander Robert Crispell. Prizes were awarded for the best essays written on "The Freedom Train" theme. Peter Williams, county commander, presented the following awards: Harold D. Carlson, first prize, gold cup; Mary Gulack, second prize, silver medal; Teddy Lukacs, third prize, bronze medal; Elinor Boice, first prize for high school group, received a gold medal. Students later read their prize winning essays. Other features included speeches by Ed West, vice-commander; Conrad J. Heiselman, former mayor of Kingston, who gave an outline of the founding of the American Legion in Paris in 1919; Mr. Heiselman then presented Olive Post with a gold cup for having accepted the most new members in 1947-1948 in the county. Music was supplied by Harold Wilkins and his sound truck. Jack Darling offered the prayer. Taps were sounded by Anthony Minervini of West Shokan. Several visitors were in the village during the week-end preparing their homes for the summer months.

## Federal Land Bank Dividend

More than 9,500 New York state farmers will share in a \$106,000 dividend declared by The Federal Land Bank of Springfield, according to an announcement made today by H. B. Munger, president. Munger said that of this dividend approximately \$51,400 will be paid to the 28 local cooperative national farm loan associations in New York which make and service the Federal Land Bank mortgages in their respective communities. This three per cent dividend, payable to all stockholders of record as of May 31, 1949, is the second such dividend within the last year, the previous one having been declared in December, 1948.

"The Federal Land Bank of

Springfield is owned by its borrowers through 64 national farm loan associations in the six New England states, New York and New Jersey," said Munger. "These associations own all of the bank's capital stock and approximately 20,000 members own all the stock of the associations. As cooperatives, the bank and the associations, after paying costs and providing for necessary reserves, distribute their earnings to their member stockholders in the form of dividends."

The Ulster National Farm Loan Association of Kingston, 54 John street, is one of the New York associations sharing in this Federal Land Bank dividend. The association's president is C. Chester DeMond, Jr., Ulster Park; vice president, Alfred Sedell, Wallkill; secretary-treasurer, C. Kenneth Taber, Milton. The directors are Benjamin Van Wageningen, R.F.D. 3, Kingston; and Michael Moriello and Fred H. DuBois, Jr., of New Paltz.

## Vaudeville Bill At The Broadway

Cedric and Algy, English music hall comedy stars, whose monodies and impeccable attire belie the slapstick nature of their acrobatic act, will headline the five-act professional vaudeville show at the Broadway Theatre on Friday and Saturday, June 3 and 4.

The comedians, who completed a long engagement at London's Palladium Theatre last winter, and have been appearing principally on American television since their arrival in this country, are billed as "The Monocled Ambassadors."

One matinee and two evening shows will be staged daily. The accompanying first run screen attraction will be "Unknown Island."

Another troupe of television headliners on the show will be the Youmans Brothers and Frances, three instrumentalists who appeared only a few weeks ago on the Milton Berle television show. Romantic Latin-American songs

### Two-Steal \$135

New York, June 2 (AP)—Two men fled with \$135 after holding up Isaac Gorgensky, a clerk, in the Crescent pharmacy at 151 East Tremont avenue, the Bronx, last night. Gorgensky told police the two men bound his hands and feet with cord after one of them ordered him into a rear room at gunpoint. He said they took \$35 from his pockets and about \$100 from the cash register.

are the specialty of the third act, Rudy Vasco and Anita, who are billed as "The Merry Mexicans." Vasco provides his own guitar accompaniment, as the two sing currently popular rhumbas, sambas and ballads.

Master of ceremonies for the show will be Davey Karr, billed as the "Musical Madman." Dancing will be provided by a team of young southerners, Susan and Tommy Valentine of New Orleans. They feature a new type of swing extensive theatre and supper club work in the south before coming to the New York area a few weeks ago.

## BOY SCOUT NEWS

## Spring Camporees

Nearly one thousand Boy Scouts and Senior Scouts of Ulster-Greene Council will participate in the annual spring camporees this week-end at three different campsites. Kingston district units will assemble at the Greenkill Park golf course on Friday night for their annual event under the direction of Frank E. Bourke, district commissioner. Units of the Rondout valley district will camp at the district campsite in Spring; Glen and units from mountain, northern, western, Saugerties and southern districts will have a giant five-district camporee at the council camp, Tel-Mount, in East Jewett. George Huff, district commis-

sioner, will be in charge of the Rondout event and the Camp Tel-Mount camporee will be led by the commissioners of the five districts, Alfred O'Bryan, Franklin Clark, the Rev. Harvey Todd, Lawrence Spatz and John Gow. The big feature of the camporees will be the liberty adventure trail which will occupy all of Saturday. Patrols of scouts will undertake a day-hike and will be required to complete certain projects on the trail which will test them on their scoutcraft knowledge. Patrols will be graded according to standards and awards will be made on the basis of outstanding, approved and participating units. Use of the patrol system will be emphasized and successful completion of the trail requirements will automatically qualify any patrol for scout advancement to second class rank. Saturday night will bring the big campfire program of the camporees. Indian ceremonies will be featured at these events. Well-

## Applications Reach High

New York, June 2 (AP)—Unemployment insurance applications in New York state reached an all-time high of 424,901 last week. This is 17,000 more claims than were filed the week before. The figures were made public yesterday by the office of State Industrial Commissioner Edward Corl.

Bulk of the increase was in New York city, where claims rose 15,000 from the previous week to 261,494. The report said much of the increased unemployment was in the city's huge garment industry.

## Grange Asks Clarification

Poughkeepsie, N. Y., June 2 (AP)—The Dutchess County Pomona Grange today called on New York State to "clarify" its tax laws governing the taxation of churches by special service districts. The

Grange, in its quarterly meeting here, adopted a resolution which declared that in some instances special taxation would force churches to close their doors, thereby making "a mockery of freedom of religion." The Communism. resolution, addressed to Gov. Thomas E. Dewey and other state officials, said such taxes seriously penalized many churches in the state. "Churches," it added "are the greatest enemy of Communism."

## 300 Are Expected At Knights' Dinner

Five Knights of Columbus, who have been members for 50 years, will be honored by Kingston Council 275, at a testimonial dinner on Tuesday, June 14, at 7 p. m., in the R. of C. Home, Broadway and Andrew street. It is expected that 300 will

gather at the dinner for the 50-year knights: Patrick J. Murphy, James J. O'Connor and William B. Byrne, all past grand knights; and John V. O'Connor and Dennis B. Heffernan.

Guest speaker for the occasion will be John T. Loughran, chief judge of the Court of Appeals. Arrangements are in charge of Col. Frank L. Monger, honorary chairman; Joseph J. Murphy and Allen A. Baker, past grand knights, as active chairmen.

## Plan Centralization

A study of an elementary centralization for schools in the Town of Marbletown will be held at the state education department June 20 and 21. All trustees are requested to attend or to have a representative in making the study. If the study is favorable, it is reported, it will be presented to each school district for consideration.

## Lemon Frosting

To make a lemon frosting for the top of an 8-inch sponge cake, cream two tablespoons butter or

margarine, beat in a cup of confectioner's sugar. (Be sure to sieve the sugar if it is at all lumpy.) Now add a tablespoon of lemon juice (the juice of half a small lemon is usually enough) and thin with a little cream. Sprinkle with finely chopped nuts after spreading over the top of the cake. If desired, this amount of icing will not frost sides.

## Do You Remember

by SOPHIE MILLER

Was asked the other day about the sailor and soldier monument in front of the city hall. To my knowledge it was erected in 1890 to the soldiers and sailors of the County of Ulster of the War for the Union, 1861-1865, by their grateful fellow citizens. The monument is made from granite and a bronze figure of a sailor stand at either side of the shaft.

The memorial tablet which stands in front of the city hall was unveiled with appropriate ceremonies on Sunday afternoon, May 30, 1920 and contains some 1,500 names of men who saw service in the first World War. At that time Mayor Palmer Canfield officiated with Kenneth Canfield in his army uniform and Peter Jordan in his navy uniform representing both branches of the armed services. They handled the hayrads and unveiled the tablet as the Citizens Band played the Red, White and Blue. Miss Virginia Los Kamp, contraalto soloist of the Rondout Presbyterian Church, sang the Marseillaise and the National Anthem. Taps were sounded by William White.

The following was sent me by A.S.P. about old Co. M, F. 1st New York Volunteers arriving home Tuesday morning, December 28, 1898 to Kingston.

The Transport ferry was waiting on the Rhinecliff side. The boys were loudly cheered as they began to alight from the train and their friends grasped them by the hand to welcome them home. Those who were ill were tenderly carried from the train on stretchers and placed in carriages waiting for them. Corp. Charles H. Smith and Privates David Winter and Frank Rice were taken to their home and Private Augustus Keefe was removed to the hospital as he was the most seriously ill.

The march formed from the train down to the ferry, after which the Transport started across the Hudson to Rondout with her precious cargo. All the way over the whistles on the ferry and on tug C. D. Mills were blowing and when the ferry came in sight of Rondout, the many boats lying in the creek also blew their whistles for some time. Cheers after cheers went up as the boys reached Rondout. Campages were in readiness for the returning soldiers, but they preferred to march with the rest. Headed by a number of police on horseback the parade started to the armory where the crowd was so dense the police were obliged to force passage by main strength to permit the soldiers to enter. After the officials entered the year doors, the soldiers marched in followed by the Grand Army. At this point, the crowd inside the building which had been kept back by ropes stretched across the spacious drill room in order that space might be reserved for the soldiers, broke through ropes, cheering wildly and rushing to the new arrivals. Mayor Brinnier finally managed to restore order as the Rev. Charles Meyer Hall offered prayers.

Who remembers this: "Welcome back" ceremonies? When Corp. John J. Smith was tendered a reception at John Wolf's on Abel street. When St. Peter's Commandery, Knights of St. John, serenaded John Jackson on West Front street, and many other pleasant memories of 1898.

W.A.A. Gives Title  
To State for College

New York, June 2 (AP) — The War Assets Administration has awarded title to historic Plattsburg, N. Y., barracks to the state of New York for use as a state college.

The 722-acre area contains 170 buildings.

It has been used since 1946, under an interim rent-free W.A.A. permit, as the site of Champlain College, an institution providing two years of college courses to ex-servicemen.

The barracks, acquired by the government during the War of 1812, served as an army installation until 1946, when they were turned over to the Associated Colleges of upper New York to house the emergency school.

It has operated under auspices

of the State Department of Education. Present enrollment is 1,787. Walter F. Downey, W.A.A. regional director, said yesterday in announcing award of the property to the state that the award includes 40-acre Crab Island in adjacent Lake Champlain.

He said the island is for use in college summer sessions.

## Fire Is Extinguished

New York, June 2 (AP) — Roman Catholic nuns quieted the aged patients when a basement fire sent smoke seeping through the Frances Schervier Hospital in the Bronx at 1:30 a. m. (EDT) today. The fire was in window screens being repaired and painted. Firemen quickly extinguished the flames, and damage was slight. Origin of the fire was not determined immediately.

Blames Mrs. F.D.R.  
As Boss of U.S. Policy

Washington, June 2 (AP) — The Madrid official radio in a broadcast recorded today by U. S. Government monitors complained that Mrs. Franklin D. Roosevelt is "dictator" of American foreign policy.

The broadcast was based on published reports that the wife of the late president had prevailed on Secretary of State Acheson to refrain from backing a recent proposal in the United Nations to return ambassadors to the Franco government.

"Is Mrs. Roosevelt a sort of Stalin in petticoats?" demanded Commentator Juan de la Cosa. "Where does her power lie? Why does Mr. Acheson obey her with so much submission?"

If Mrs. Roosevelt has that much influence, he suggested, she "personally directs U. S. policy" and "hence Mrs. Roosevelt is a dictator and the United States a dictatorship."

Mrs. William Adams and sons, Pat and Billy Saturday.

The regular meeting of the Plattekill Democratic Club will be held Tuesday evening, June 14, at the home of Mrs. Ray Shea, near Plattekill. This will be the final meeting during the present season. Regular meetings will be resumed in the fall.

Arthur Coy and daughter, Gladys, of Port Washington, L. I., visited relatives and friends here during the holiday vacation.

A surprise linen shower was given Wednesday for bride-elect of George Lare of Newburgh, at the home of Mrs. William Cole in Highland May 25. ## Bunche Refuses Any Comment on Racial Segregation

New York, June 1 (AP)—Dr. Ralph J. Bunche said today, "I am a Negro," when asked to comment on published reports that racial segregation in Washington, D. C., was an important factor in his refusing a State Department post last week.

Bunche, now senior director of the United Nations Trusteeship Council, said:

"It is well known there is Jim Crow in Washington. It is equally well known that no Negro finds Jim Crow congenial. I am a Negro."

He declined to amplify the remark.

The published reports said racial segregation in the nation's capital was an important factor in his refusing an appointment as assistant secretary of state. It was the highest federal post ever offered a member of his race.

Bunche, the reports stated, took up the Jim Crow problem with both Secretary of State Dean Acheson and Undersecretary of State James H. Webb in declining the proffered post.

He also referred to it obliquely when he told President Truman he did not wish to take the job "for many reasons," the report added.

Bunche said last week when he declined the post that the controlling factors were his conviction that his U.N. work is too important to leave and the fact he could not afford the cut in salary which he would have to take.

As a U.N. official his federal taxes are paid by the international organization, leaving him \$11,000 a year plus a \$3,000 allowance. As an assistant secretary of state he would receive \$10,000 a year on which he would have to pay taxes.

## To Speak June 10

J. M. CONVERY

Chairman E. N. Ashton of the Kingston Chamber of Commerce Local Industry Promotion Committee announced today that his committee will sponsor an employer-employee communications clinic on Friday, June 10. John M. Convery of the industrial relations staff of the National Association of Manufacturers will be the speaker.

The meeting will start with a luncheon in the Governor Clinton Hotel at 12:10, followed by Convery's talk and a discussion period. This is the second industrial clinic arranged by the committee. The first on employment stabilization, was held in February. The purpose is to bring about better employer-employee relations.

Industrial representatives are cordially invited to participate. Reservations can be made at the Chamber of Commerce office. Notices of the clinic will be sent to

## Industrial members of the Chamber

Convery is an authority in the field of employer-employee relations. Prior to the war he worked with the General Electric Atlantic District, first as personnel manager and later as sales manager. For the past four years he has conducted forums on industrial relations problems for top management. He was one of the group which developed job relations training during the war and conducted the first J. R. T. master institute. President Ashton stated that this clinic should be of interest and value to all industrialists and plant management.

## Growers Will See Fungicide Tests

Results of a five-year experiment on various fungicides will be seen by fruit growers attending a twilight meeting at the Fred DuBois farm on Route 32 between New Paltz and Modena Friday evening, June 3, at 7 o'clock.

The experiment was set up by Fred DuBois and Bud Palmiter using a speed sprayer to apply the various types of fungicides. All area fruit growers are invited to attend the meeting, which has been planned by the Ulster County Farm Bureau.

Spray schedules for the remaining part of this season will be discussed by Palmiter and Donald Hamilton.

Another twilight meeting for growers of the Marlborough-Milton area has been scheduled by the Farm Bureau for Tuesday, June 7, at the Myron Hazen farm in Milton.

## 'Mr. Song of 1949' Finalists

WILLIAM LIVINGSTON

RAY WEAVER

William Livingston and Ray Weaver will enter the finals Friday evening at the Broadway Theatre in the "Mr. Song of 1949" contest. These winners of the first and second five-weeks contests will be judged at 7 o'clock immediately preceding the vaudeville show. The winner will receive prizes valued at \$1,375. The contest will be broadcast from the stage.

## Railroad Retirement Act

A representative of the Railroad Retirement Board will be at the examiner's room, second floor, New York Central Railroad Station, Kingston on Wednesday, June 8 between 1 and 3 p. m. for the purpose of rendering assistance and advice to railroad workers in connection with matters

concerning applications for retirement and death benefits. Inquiries about the Railroad Retirement Act also will be answered.

## Social Security Monthly Payments Here Now \$38,992

Growth of the old-age and survivors insurance system in the U.S., as just reported to Congress in the 1948 Federal Security Agency annual report, is reflected in this area by data from the local Social Security Office. George J. Johnson, manager, stated today that as of June 30, 1948, when data in the agency report was compiled, there were about 1,650 people in Ulster county receiving \$35,252 monthly in old-age and survivors insurance benefits. He said that by the end of April 1949 these figures had increased to an estimated 2,000 people receiving \$38,992 monthly, or a general increase of about 16 per cent during the 10-month period.

The Social Security Administration section of the report, prepared by Arthur J. Altmeyer, commissioner for Social Security, showed that in the United States on June 30, 1948, there were 2,163,000 persons receiving monthly benefits amounting to \$12,400,000. These Federal insurance benefits go to insured, retired workers over 65, their wives if over 65, and their dependent children, and to the widows, children, and dependent parents of insured wage earners who have died.

Interim reports which have been prepared show that by April 30, 1949, the number of these insurance beneficiaries had climbed on up to 2,480,000 men, women, and children getting benefits at the rate of \$49,750,000 per month. As Altmeyer observed in the preface to his report, "The social security program... created during the fiscal year 1948 a setting of full employment, a record peacetime production of goods and services, and rising prices. Earnings were higher, and the aggregate volume of savings increased."

## Will Give Benefit Concert for Y.W.C.A.

ELIZABETH LA TOUR

RAY HOWE, JR.

PATRICIA BENKMAN

### Guest Pianist Will Be Feature of Y.W. Benefit Concert

Miss Patricia Benkman of New York and San Francisco, "one of the finest pianists of the younger generation," will be the guest artist at a Y.W.C.A. benefit concert Wednesday evening, June 22, 8:30 o'clock, at Kingston High School auditorium. Miss Elizabeth LaTour, soprano, and Ray Howe, Jr., young vocalists of this area, will share the program with Miss Benkman.

A concert piano soloist since the age of eight, Miss Benkman has won acclaim from audiences and critics alike. Her program in Kingston will be the last before she will make the first of three appearances in the fall as soloist with the San Francisco Symphony Orchestra under Pierre Monteaux.

She was born in California of an exceptionally musical family. Her recital debut in San Francisco was attended by Mme. Schumann-Heink, who broke all precedent by declaring publicly that the very young artist was destined for a great career. At the age of 14 she had already appeared as soloist at with the major symphony orchestras on the Pacific coast. She was invited to the Royal Conservatoire of Brussels, the only American to be selected for this honor by the distinguished master, Marcel Mias. Later she pursued study with Egon Petri, eminent Dutch pianist.

In 1947 Miss Benkman made a startling debut in New York appearing as guest soloist in a con-

cert which co-starred Lauritz Melchior. Her performance with symphony orchestra of the rarely performed Liszt "Fantasy on Beethoven's 'Ruins of Athens,'" brought forth an ovation.

In 1948, Patricia Benkman made her New York recital debut and received acclaim for her technique, color and phrasing. This debut was followed by a coast-to-coast tour. Also she was resident pianist at St. Lawrence University.

Her selections for the Kingston concert will include compositions of Liszt, Chopin, Beethoven and Rachmaninoff.

Miss LaTour and Mr. Howe have sung on many occasions in this area. They will include operatic arias, duets as well as audience favorites from "Porgy and Bess" and American traditional songs.

Both young people have studied extensively. Miss LaTour has studied with Harrington van Hoesen who is associated with Frank La Forge in New York. Mr. Howe has studied at the Juillard School of Music and is choir director at Clinton Avenue Methodist Church. Tickets for the concert may be obtained from members or at the Y.W.C.A.

## Nelson-Cadore Marriage Performed

Announcement has been made of the marriage of Miss Constance L. Cadoret, daughter of Mrs. Ida M. Burroughs, 171 Fairview avenue, to John A. Nelson, son of Mr. and Mrs. Michael Lombardi of West Hurley. The double ring ceremony was performed in St. Joseph's Church before a Nuptial High Mass Monday morning at 10 o'clock. The Rt. Rev. Msgr. Stephen P. Connelly officiated.

Mrs. Frank Rafferty was organist and Anthony Bonacci sang at the Mass. The altar was decorated with bouquets of white flowers. The bride wore a white gabardine suit with pink accessories and corsage of white orchids. Miss Anna Battis as maid of honor wore a light blue knitted suit with white accessories and a corsage of rosebuds. John H. Clark was best man. Following the Mass a wedding breakfast for the immediate families was held at Leherb's. The

bridal couple left for a wedding trip to New York city and Virginia Beach. For traveling she chose a honey colored suit with matching hat and orchid corsage. Upon their return they will live in Hurley.

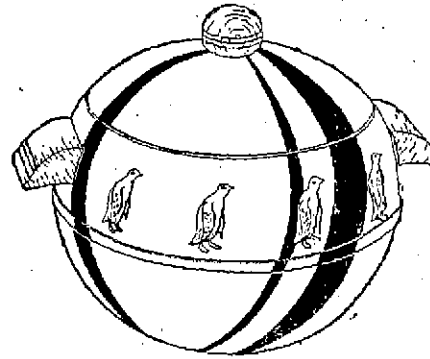

The bride is a graduate of Jesus Marie Academy, Fall River, Mass., and is employed in the office of the Montgomery Ward store. Her husband attended schools in Vermont, served in the Army Air Corps during the war and is

assistant manager in the farm equipment department at Montgomery Ward's.

### Koeppen-Riley

Vivian B. Riley, 69 Spruce street, became the bride of Fred K. Koeppen, 118 Hooker street, May 28. The Rev. Frank L. Gollnick, pastor of Trinity Lutheran Church, officiated. Witnesses were Edna Banks and Edward Koeppen.

## K.H.S. Full Chorus Will Give Faure's 'Requiem' in Concert

The Kingston High School Chorus of 200 voices will present as a complimentary concert "Requiem" by Gabriel Faure at the high school auditorium Sunday, June 12, at 4 p. m.

This will be an outstanding concert to close the school year. Miss Alma Burger, soprano, and Robert Messinger, baritone, both former students at K.H.S. will do the solos in the Requiem. Leonard Stine will conduct. Accompaniments will be played by Roy Boldt, organist; Miss Alice Millonig and Miss Ramona Leonard, pianists.

Admission will be by complimentary ticket only. Tickets may be obtained from members of the chorus or by calling the high school.

### GRANGE NEWS

**Sohn-Van Buren**  
Arlene Van Buren, 105 Cedar street, was married to Edwin Sohn, 141 Greenkill avenue, May 19, by the Rev. Robert T. Shellenberger, rector of St. John's Episcopal Church, Roy H. Mayone and Mary Lou Richi were witnesses.

**Patron Grange**  
Patron Grange will sponsor a demonstration of electrical equipment by representatives of the Central Hudson Gas & Electric Corporation on Tuesday, June 7 at 8 p. m. in the meeting room in the basement of the Dutch Reformed Church at Accord. All are welcome.

**Fog Stalls Shipping**  
New York, June 2 (AP)—Soupy fog stalled shipping in New York harbor early today. Two passenger liners due to arrive—the Queen Mary and the Edam—were halted by the fog. About 10 other ships (tankers and freighters) were held up. The Weather Bureau said that at 8 a. m. (EST) the humidity was "as close to 100 percent as we can get without the instruments breaking."

**Potato Salad**  
Individual portions of potato salad are attractive when they are served in large lettuce cups and topped with a tiny sweet pickle. In making the salad, marinate the potatoes in French dressing, then add mayonnaise just before serving. To give the salad a crisp touch add finely dried celery or sliced radishes with the mayonnaise.

## Personal Notes

Mr. and Mrs. Edward R. Colombo have returned to their home in Waldwick, N. J., after spending their vacation with Mrs. Colombo's parents, Mr. and Mrs. Harry L. Stoutenburgh of West Hurley. Mr. and Mrs. Stoutenburgh celebrated their 29th wedding anniversary May 31.

Mr. and Mrs. Leonard Fetter of Rochester have returned to their home after spending the holidays with his mother, Mrs. Emily Fetter of 2 John street.

## Violence Abates In Bolivian Strike

La Paz, Bolivia, June 2 (AP)—Order appeared to be returning slowly today to riot-torn Bolivia, but her rich tin mines remained shut and sympathy strikes continued to spread.

Officials of the Patino mines said 40 persons were killed and 83 injured in the four days of bloody rioting which followed the mine strikes, called to protest "government pressure" on Bolivia's labor unions.

Violence abated yesterday as re-

ports were received that the army had the situation under control. Spreading sympathy strikes kept the situation unsettled.

Yesterday an estimated 8,000 organized factory workers walked off their jobs in La Paz. Later reports said the walkout had only been a partial success, however.

All the country's rail lines have been paralyzed by a sympathy strike that threatened Bolivia's food supply, but today troops brought in one train from Chile.

The bodies of two American mining engineers killed in the riots are to be flown to the United States tomorrow. They are T. J. H. O'Connor, of Pasadena, Calif., and Albert Krofting, of Seattle, Wash.

## Traffic School Will Be Held

A traffic school for law enforcement officers in the area will be held in the supervisors' room of the court house starting Monday at 7:30 p. m., according to a notice posted today at local police headquarters.

The school, like that held last month, is conducted by the New York office of the Federal Bureau of Investigation.

It will be continued for three nights after the opening date.

## Meeting Is Postponed

A meeting of the Board of Education which had been scheduled for Wednesday evening was postponed. It is expected that at the next meeting of the board a successor to Clarence E. Dumm, will be selected for the position of principal of the high school. Dr. Dumm will retire as principal with the close of the present school year.

## Changes Color

The light which reflects from the surface of crystals is white when it enters, but is broken up into different colors by the cut edges.

## TO MANAGE MET

Rudolf Bing (above) of London, has been appointed the new general manager of the Metropolitan Opera Association of New York to succeed Edward Johnson, it was announced in London. Bing 47, who began his career in opera management on the continent, is currently artistic director of the Edinburgh Festival and general manager of the Glyndebourne Opera.

## Largest Campsite

Fish Creek Ponds Campsite, on Highway 10, between Wawbeek and Saranac Inn, is the largest campsite in New York state, having 400 individual sites for campers. Annual registration averages 40,000, according to "New York State Vacationlands," a free, 196-page illustrated guide obtainable from the State Department of Commerce, 112 State Street, Albany 7, N. Y.

First use of gunpowder in artillery was to batter fortifications and it was not used in the field until late in the 15th Century.

## A 3 Generations Customer at Standard!

Mrs. Elizabeth Krause, who has been a Standard customer for 40 years, says: "The folks at the Standard Furniture Co. are very nice people to do business with. That is one of the reasons why I have been with them for 40 years. I first did business with William Fienberg's father, Abraham. In fact, you could call me a 3 generations customer. I just had my living room furniture reupholstered, and it certainly looks lovely. I am looking forward to many more years of pleasant relationship with them."

## ROSENDALE NEWS

### Cancer Collections In Town Are \$722

Rosendale, June 2—Cancer Fund campaign chairman for the town of Rosendale, Mrs. Andrew J. Snyder, has announced that the town has exceeded its quota of \$622 by a sum of \$100, making the total collections for the town \$722. At the beginning of the drive, Mrs. Snyder reported, there was considerable doubt that the quota would be met. It was only the generosity and help of the townspeople, and the diligent efforts of

the collectors that made the final results of the drive outstandingly successful.

### Legion Movies

Rosendale, June 2—Rosendale-Tilson Post 1219, American Legion, has again scheduled a series of movies. They will be shown on Monday, June 6 at the Cottekill firehouse at 8 p. m., and on Tuesday, June 7 at the Rosendale school at 8 p. m. Films to be shown will include the World Series of 1948, Unfinished Rainbows, starring Allan Ladd, Phantom Fever, Siki Thrills, and others. There will be no admission charge. Refreshments will be sold to cover the cost of the films. The public is invited to attend.

### New Publicity Group Is Formed for Town

Rosendale, June 2—At a meeting Tuesday evening at Fiedler's Mountain View House a new Rosendale township publicity committee was formed to publicize the town as an ideal location for vacationists. Joseph Reid was elected president of the new publicity committee with Mrs. John Duffy, secretary; Edward Denarest, treasurer and Ferdinand Fiedler, Sr., as chairman of publicity. The same folder as used in previous years will be used again this year, but plans are already being formulated for preparing a new and improved publicity folder for the 1950 season. The publicity folders are distributed through 266 agencies in 45 states. All of the boarding houses, hotels and resorts in the township will be contacted in an effort to obtain full cooperation. In addition to those above-

mentioned, present at the meeting were Mrs. Hermann Scharmer, Mrs. Joseph Nickolich, Joseph Esposito, Albert Thomann, Mrs. P. J. Hooley, Enos Spindler, Henry and John Dittmar, H. Paker, F. Gorman, M. Gorman, H. O. Thummel, H. Schriever, Stephen Hubon, and Edward Hubon, secretary of the Chamber of Commerce of Ulster county.

### Personals

Rosendale, June 2—The Misses Phyllis Seskin of Brooklyn and June McGuire of Tilson were Saturday guests of Mr. and Mrs. George Mollenhauer of Half Moon Farm for an evening of bridge. Mr. and Mrs. Arthur Kahn and infant daughter Diane of Ridge-wood, were week-end guests of Mrs. Kahn's parents, Mr. and Mrs. Edward McCaffrey of Main street, Rosendale. Other week-end guests were Edward McCaffrey, Jr., of Ridgewood and Miss Eileen McCaffrey of Brooklyn. Miss Margot Kay and Larry Shortell of Sawkill called on Miss Kay's mother, Mrs. Duncan Lohrop, of Main street over the week-end. Mrs. Walter Himmelberg, son Peter and daughter Alita, are making an extended visit with Mr. and Mrs. Frank Himmelberg at their summer home on River road, Tilson. Mr. and Mrs. George Mollenhauer and son David of Half Moon Farm called on Mr. Mollenhauer's sister, Mrs. Frank Simpson, and Mr. Simpson and Otto Mollenhauer, Sr., of Highland Sunday evening. Another sister, Mrs. Harry Paen of Walden, spent the week-end at the Simpson home.

### Deadly Poison

The poison of the black widow spider is about 15 times stronger, weight for weight, than that of the rattlesnake, according to the Encyclopedia Britannica.

### Love Triangle Cited In C-47 Explosion

Manila, June 2 (AP)—A love triangle may have caused the mysterious explosion of a C-47 transport plane that killed 13 persons last month.

National Bureau of Investigation agents said they have information a woman and her lover had a time bomb placed aboard the plane to kill her husband. Dispatches from Dact in South Luzon said the bureau was assembling the facts today.

The plane, a Philippine Air Lines transport, blew up in the air on May 7 after taking off from Dact for Manila.

A spokesman for the N.E.I. said a formal complaint of multiple murder is expected to be filed soon in court at Dact. He would not go into further details.

The report of the love triangle angle came in dispatches from Dact to Manila newspapers.

### Bing Will Be Impresario

New York, June 2 (AP)—A British music impresario is scheduled to take over as managing director of the Metropolitan Opera next year. Rudolf Bing, 47, artistic director of the Edinburgh International Festival of Music and Drama, was appointed to the post yesterday. "Nothing less than this, the biggest job of its kind in the world," he said, "would have induced me to leave the Edinburgh Festival." Bing will replace Edward Johnson, who retired as managing director of Metropolitan June 1, 1950. He will start working with Johnson next fall.

**Sub-Committee Named  
On Library Aid Fund**

Albany, N. Y., June 2 (AP)—Anthony J. Cerrito of Yonkers will head a research sub-committee to recommend legislation on state financial aid to public libraries.

Appointment of the nine-member group was announced yesterday by Governor Dewey's special committee on library aid. The subcommittee will meet June 10 at the Capitol.

Dewey appointed the special committee May 3 to determine the

need for additional financial aid and methods by which it would be distributed to local libraries.

The state now provides a maximum \$100 annually to registered public libraries and their branches.

The other subcommittee members are: Henry Paynter, Peekskill; Ralph A. Beals, New York City; Harold Hackee, Buffalo; Lawrence E. Walsh, assistant counsel to the governor; James E. Allen, Jr., and A. Warren Schmidt, both of the State Education Department; William Emler of the state comptroller's staff; and Edgar W. Martin of the state budget division.

**Says Annulment  
Would Bring Out  
Strong Statement**

Hollywood, June 2 (AP)—A lot happened to Margaret O'Brien in one day, even for a movie star.

This is what happened yesterday:

1. Her mother announced that she would try to annul her marriage to Orchestra Leader Don Sylvio, the marriage that made the 12-year-old Margaret very unhappy.

2. Margaret stopped out of her \$3,000-a-week job at Metro-Goldwyn-Mayer by mutual agreement.

3. She had an offer to play "Peter Pan" on Broadway.

Mrs. O'Brien said that she was "very happy" about the annulment. "I am planning to ask him to do with it," she said. "I don't want to make it clear she had nothing—absolutely nothing—to do with it."

She added she had never lived with Sylvio as man and wife since the wedding last February 22 in Palm Beach, Fla.

Sylvio disagreed.

"An annulment," he said, "why, that's ridiculous. There was no fraud in our marriage and the marriage was consummated."

As to Margaret's role in the annulment plan, Sylvio commented: "If I could discuss that it would make quite a story, believe me. If Gladys insists on filing the suit I'll issue a statement that should be interesting reading."

Margaret cried and clenched her fists throughout the wedding and

**Marriage Proposal  
Ends in Sudden Death**

Muncie, Ind., June 2 (AP)—A 44-year-old Muncie bachelor collapsed and died last night after proposing marriage to a widow while driving along a country road.

Coroner Sam Drake said the man, Earl T. Bennett, died of a heart attack.

Sheila W. Pete Anthony said Mrs. Mabel Daugherty told him she had accepted his proposal.

Daugherty told him she was a quarter-mile to a highway and flagged a truck driver, who called the sheriff's office.

The sheriff said Mrs. Daugherty is the widow of Charles Daugherty, who was killed in a fight last December. He said her brother, Elmer Carroll, was convicted of manslaughter in the case three weeks ago.

**Report on Housing**

(This is the first of a series of articles on the housing situation in Kingston, N. Y., prepared by the New York State Division of Housing in conjunction with the proposed Kingston housing project.)

The first article is on "The Survey Method," and is presented here in detail:

A visual inspection of the entire city revealed three main areas which contained a preponderance of substandard housing. These areas consisted chiefly of contiguous blocks in the southeastern part of the city.

The first step of the survey consisted of listing all the dwelling units in the area. Cards showing street boundaries were prepared for each of the blocks and assigned to instructed enumerators. The enumerators then went around each of the blocks in the area and recorded the use to which each parcel of land was put. Simultaneously, each residential structure was rated as to its state of repair.

(Residential structures were rated as being in one of the following conditions: a, Good; b, Minor repairs needed; c, Major repairs needed; d, Unfit for use.)

The number of occupied vacant dwelling units was recorded for each structure. Upon completion of this phase of the survey the following information was available for the area:

Condition of Structure	Dwelling Units in Area	Sample
Good	217	25
Minor repairs	419	42
Major repairs	353	35
Unfit for use	13	1
Total	1000	100

The estimates of family and housing characteristics are based on a sample and are therefore subject to sampling variability. The following table presents the approximate percentages of estimated percentages based on totals of selected sizes.

Sampling Variability of Estimated Percentages

Size of Sample	Estimated Variability
2500	1.0%
1000	1.5%
500	2.0%
250	2.5%
100	3.0%
50	3.5%
25	4.0%
10	4.5%
5	5.0%
2	5.5%
1	6.0%

The above table shows that estimated percentages based on totals of 100 or less should be used with caution since the sampling error is considerable. In addition to sampling variation, the estimates in the tables are subject to errors of response and non-reporting. The possible effect of such errors is not included in the above table.

**Eisler Is in Germany**

Berlin, June 2 (AP)—Gerhart Eisler has arrived in Germany and been welcomed to the Soviet zone by top Communist leaders, the Soviet-licensed A.D.N. news agency said today.

A.D.N. said Eisler arrived at Dresden from Prague and was met by Wilhelm Pieck, head

of the German Communists, and Max Seydewitz, minister president of Saxony. The head-jumping fugitive from the United States will attend a convention of the "Free German Youth Organization" in Leipzig today. The agency reported. Eisler is slated to become a professor of social science at the University of Leipzig.

# Beer Tastes Better in Bottles!

## NEW "ONE-WAY" GLASS BOTTLES

### NO DEPOSITS—NO RETURNS

#### Cost Less than Cans!

Yes, here's the biggest news since beer was bottled! This revolutionary new bottle design gives you strength and economy, too. You use the bottle once—then discard it—and it actually costs you less than cans!

Both beer and ale taste better in bottles. Impartial laboratory tests prove that beer and ale hold full color, bouquet and flavor better and longer in GLASS than in any other container—and the cap keeps the bottle lip you pour or drink from 100% free from dirt.

In buying beverages and food, remember—

**Motor Manners**

By Emily Post  
(Author of "Etiquette," "Children Are People," etc.)

Mrs. Post's "Motor Manners" is made available to the readers of this newspaper by the National Highway Users Conference, as a public service.

**Children in the Street**

Q. What courtesy should drivers show children in the street?

A. Experienced drivers know that children cannot always be held responsible for their actions. Lack of consideration for children in the street can result in manslaughter. All careful and polite motorists keep on the look-out for pre-school age youngsters who may dart into the street. Mannerly drivers will always slow down and proceed with caution in school zones. Every civil motorist will cooperate with school boy patrolmen as they go about their serious business of protecting their younger school mates. It should shame many grown-ups that school children are frequently their peers in pedestrian courtesy and manners.

**Right-of-Way**

Q. Why is the right-of-way one of the most important traffic courtesy rules?

A. It is important because these rules establish the priority of the movement of vehicles and pedestrians at intersections, drive-ways, in making left turns and wherever there are possibilities of conflicts. All right-of-way rules are evidences of good manners. But they are often misunderstood. Since right-of-way rules are not always consistent between different communities, the correct local mode must be accepted. It is a case of "doing as the Romans do." Stealing the right-of-way from someone else is offensive. Polite drivers never usurp another person's privilege. They are seldom in such a hurry that they can't pause for a courteous or friendly act.

# Bristol Sweeps Series Here With 6 to 1 Victory Over Colonials

## Local Nine Fails In Clutch; Petty Loses Fifth Game

It became painfully obvious to a small gathering of 226 faithful rooters at municipal stadium last night that the Kingston Colonials as presently constituted cannot play even .500 ball in the Colonial League.

Guy Coleman, of the Bristol Owls, one of the best pitchers in the league, handcuffed them with six hits for a 6-1 decision, the Colonials' 19th loss in 27 games.

Local batting ruined several excellent chances to break through Coleman, who thrice loaded the sacks and each time escaped unscathed.

They have been blaming the weather as a primary factor in Kingston's poor attendance. It was newly perfect last night and yet only 110 fans showed up. It's the old story of the winning club. Kingston fans demand it and the current edition of Colonials just doesn't seem to have it. They try hard enough but generally manage to wind up second in the boxscore.

**Lack Power Hitters**

President Ted Laviano must realize that the club lacks a legitimate long ball hitter and doesn't have the power for a sustained attack on a pitcher. Changes are necessary, and quick, if the franchise is to survive.

Harry Petty yielded 10 hits last night and three of them were those exasperating opposite field drives that scattered the chalk on the baselines. Discounting these lucky blows, he still didn't have enough support to win and is still seeking his first win after five straight losses.

Pitcher Coleman launched a three-run Bristol rally in the third with a drive to left field corner that eluded Johnny Elenchin and rolled over the embankment for a home run.

Bernier walked after Coleman's homer but was nulled stealing. Kelly and Kunde then sandwiched O'Connell's single with a pair of doubles for a 3-0 lead. Kunde's triple behind the fielder's choice picked up a run in the fifth and the Owls moved in for another pair in the seventh.

Coleman got a life on Gerald Murray's error and rode home on Bernier's triple to deep center. The Puerto Rican speedster romped across on Kelly's single past McNamara.

Frank Granato never hit a ball any harder in his life but his screaming liner went straight into centerfielder Bernier's hands to snuff out Kingston's first threat in the sixth. The sacks were loaded with two out at the time as the result of walks to Danny Perlmutter and Gerald Murray and Elenchin's single to center.

**Coleman Bears Down**

Again in the seventh, Coleman was in trouble when he walked Petty and Perlmutter behind an error on Matzer to jumpstart the bases with two out. This time he carried Johnny Elenchin to 3 and 2 and struck him out.

The late stayers were clamoring for a rally in the last of the ninth when "Digger" O'Dell

lashed a sharp drive to right with the bases jammed but O'Connell made a nice running catch near the foul line to end the contest.

The Colonials' lone tally was the result of Murray's single and Frank Granato's two banger to left center. Granato was out at third trying for a triple.

**COLONIAL CAPERS** — Next home games will be the Sunday twinbill against Stamford, first game at 6:30 p. m. Umpire Fuchs was in plenty of hot water with both sides on balls and strikes decisions. Granato hit two balls hard.

The Bridgeport Bees had a tighter grip today on the top rung of the free-hitting Colonial League.

They drubbed Stamford 9-3 last night in a game in which an aggregate of 21 hits were made, and 10 walks and a Stamford error contributed to their victory.

Waterbury made it seven in a last night in beating the Poughkeepsie Chiefs 8-6, and 19-year-old Eddie Sawyer was the winner despite the fact that he was yanked in the seventh after walking four and yielding a single to Joe Zaack that brought in two runs.

## Kingston Tennis Team Wins, 4-3 Over Ellenville

Coach Theron Culver's tennis squad from Kingston High School made it five out of seven Wednesday afternoon by squeaking through with a 4 to 3 win at Ellenville.

It was a struggle until the final doubles match when Rider and Kriz of Kingston turned back Yonker and Schordine of Ellenville, 6-2, 3-6, 6-3.

The Maroons won three of the singles and one doubles match to win the match.

Kingston High entertains Middletown here Friday.

## MAJOR LEAGUE ROUNDUP

By The Associated Press

By JACK HAND (Associated Press Sports Writer)

Who's the No. 1 righthander of the American League, now that Bobby Feller has started to slip?

Vic Raschi, strong-armed New York Yankee ace, and Virgil Trucks, Detroit speedster, look like the leading candidates.

Feller isn't finished. He showed enough last night in losing a 3-1 decision to Boston to prove that. But even Bobby admits he's not as he used to be.

Raschi put in a solid claim with his three-hit shutout of the Chicago White Sox last night, 3-0. It was his seventh victory to one loss. Trucks survived a shaky start to subdue the Philadelphia A's in 10 innings, 5-4, for his seventh win. He has been beaten twice.

The brilliant job on the White Sox was Raschi's third shutout of the season, more than any other pitcher in the league. Only his wildness made the game tough for him. He walked five and wild pitched twice. A double by Floyd Baker in the third, a single by Earl Rapp in the sixth and a double by Jerry Scala in the seventh were the only hits.

**Henrich Poles Homer**

Tommy Henrich's 10th homer broke up a 0-0 duel between Raschi and Howie Judson in the seventh. That came just after Raschi wiggled out of a tough hole when the Sox loaded the bases in the sixth.

Trucks started out like the worst pitcher in the league, walking the first three Athletics. Then he hit Hank Madjeski to force in a run. Taft Wright's two-run single gave Coleman a three-run working margin but he couldn't hold it.

The game wound up in a hectic tenth inning after the teams had managed to score up a 4-4 tie. George Kell led off with a single after Coleman, angered by an umpire's decision and bench jockeying, strode off the mound toward Coach Dick Bartell.

Kell moved to second on an infield out and scored the winning run on Hoot Evers single. After the shaky start Trucks settled down and struck out 10 in the extra inning thriller.

Feller, making his first start in two weeks, gave up two runs in the second inning on two infield bouncers, a walk and an error. Each side scored once later but that was the ball game. In suffering his fourth loss to one win, Feller allowed eight hits, walking four and striking out three.

Despite the victory, the Red Sox remained 4½ games behind the Yankees in the pennant race. Mickey Harris pitched himself in and out of trouble for his second complete game of the year. In the third and fifth, the Indians loaded the bases but both times Harris struck out Ike Boone, subbing for Lou Boudreau at shortstop.

Washington handed the St. Louis Browns their seventh straight setback, 6-5, with the help of the first homers of the season by Eddie Yost and Sam Dente.

The National League which has been involved in a double or triple tie for first place finally has a clear cut leader in the Boston Braves.

**Braves Edge Bucs**

The Braves outscored Pittsburgh, 5-2, in a full game ahead of Brooklyn and New York, tied for second. The Dodgers bowed to St. Louis in the afternoon, 6-3, while the Giants were trimming the Chicago Cubs, 11-5 on a seven-run seventh.

Nine pitchers saw action in the Boston-Pittsburgh game. The last place Pirates whacked out a five-run lead in the first two innings when they knocked out Vern Riffe, but both times Harris struck out the bases loaded.

Stan Musial cracked two homers as the Cards came from behind to top Brooklyn, Musial's second homer started a four-run rally in the ninth.

**Webb Stops Cubs**

Willard Marshall's 400-foot homer and Sid Gordon's triple helped the Giants come from behind to defeat Emil Kuhn. Sam Webb pitched brilliant relief ball, allowing only two hits in 7 1/3 innings, to receive credit for his first victory.

The Phillies scored twice in the 10th to down Cincinnati, 4-3. An error by Red Stalcup allowed the tying run to score in the extra inning. Andy Seminick's fly scored Gran Hamner with the winner.

## Jones-Morgans Scheduled Tonight In City League; Franks Win, 10-3

### Rhinebeck Offers First 50-Lap Race

The first 50-lap race of the season will go Saturday night at Rhinebeck Speedway at 8:30 p. m.

Director of racing, Steve Iko, expects a sell-out crowd for the quarterly championship, considering that since the inception of stock car racing at the Speedway, near capacity crowds have turned out.

The largest field to date is promised by the president of the sanctioning body Rex Records well known driver from Stamford, Conn.

Some of the top racing drivers in the east are expected to file entries for the long grid which affords double points in USCRC point race for the season's circuit championship.

Johnny Rogers of Charlotte, North Carolina; Al Keller of Rochester and Johnny DuBois of Paterson, N. J., head the list of top entrants already signed.

Promoter Iko declared that with the interest shown in the 50-lap grid he must advise racing fans to be there a little early to be assured of a choice seat.

**Stone Ridge Nine Cops Doubleheader**

Stone Ridge Royals swept a holiday doubleheader from the Hurley Juniors, 9 to 7, and 12 to 11 in eleven innings.

Ron Koziar sparked for Stone Ridge with a brilliant relief job in the second game, yielding only three hits in 8 2/3 innings. The Riders overcame a 10-5 deficit in the nightcap.

Fred Spongia collected eight hits in the two games for Stone Ridge. Paul Foster had five hits, with a double and triple. Bill Osterhout seven hits in 10 trips.

## Lewis, Producers

negotiations with Moody to get under way this week, it was considered unlikely that he would spell out those demands to Moody before he has a chance to discuss the contract.

Moody has a sizeable package of arguments marshalled for use against Lewis' expected demand for a higher royalty for his welfare fund. Lewis would like to postpone that speech while he clears up preliminaries with the steel company 'captive' mine interests and other geographical operating divisions.

The present royalty is 20 cents a ton. That yields about \$100,000,000 a year, but it is being spent faster than it is coming in. The U.M.W. chief is expected to ask for more—maybe as much as 40 cents a ton.

## Hickenlooper . . .

accusations were centered largely on personnel, security, the loss of atomic material and the controversy over reactor plant sites.

The committee's request for the army inventory supported the contention of some members that Groves ought to be called to answer Lillenthal's statement that the program was slipping under military control.

Lillenthal told the committee in effect yesterday that one of the reasons why Hickenlooper was able to point to an 87 per cent turnover in personnel in 1947 and 1948 was the "general exodus" from the Manhattan District—military name for the A-bomb project—as soon as the war ended.

Hickenlooper himself was understood to oppose calling Groves, for fear of renewing the old argument over civilian vs. military atomic control.

The Iowa senator said he is a firm advocate of civilian control, adding that this issue hasn't any place in the current investigation.

He spent most of yesterday's session citing names of atomic employees who had quit, claiming that incompetence at the top caused a high turnover.

There was every sign that Hickenlooper's chief attack on Lillenthal will center around what the Iowa senator has called loopholes in the commission's security rules—particularly with respect to the loss of uranium oxide and to the granting of scholarships to suspected Communists and fellow travelers.

Senator Knowland (R-Calif.)

## Opposition Causes

tion with the center portion since this was to be kept open to the public as an airport facility. The balance of the property could be leased without a public hearing under the law, since it was not open to the public.

Stang stated the portion open to the public would be tax exempt but taxes would be paid on that portion not open to the public. Eastern Industries Corporation was interested in use of one of the strips adjoining the runway area as an industrial site and Stang said a woman was interested in a portion for agricultural purposes. He did not mention her name.

**Odors Are Feared**  
Supervisor Stewart said use of the area for chemical use was protested. It was intimated that there might be objectionable odors and other objectionable features. It was at this point that N. LeVan Haver, appearing as counsel to Eastern corporations, stated that in the face of apparent hostile feeling by residents of the area the company was withdrawing its offer. Menthe did not desire to locate in any community where there was hostility.

Haver said the company would have to employ local help and did not desire to go to a community where there was opposition. It would mean labor difficulties. Several communities had sought the concern, but they had been interested in the Shawangunk property because of its size and the fact that there were airport facilities as well as plenty of land.

In its business the Eastern Corporation deals with airplane concerns and the landing field adjacent to its manufacturing plant would be a great asset. It was this attractive layout which had induced them to attempt to come to Ulster county.

This company planned to spend \$40,000 for buildings. There was nothing to harm the area in connection with the industry and they would employ local people. However, in the face of hostilities the offer is withdrawn," said Mr. Haver. He said he had sounded out opinion before the meeting to ascertain whether the people present were in favor or opposed to the leasing and in view of the opposition Eastern did not want to enter any community where it found opposition, he concluded.

**Wallkill Man Protests**  
Oscar M. Smith, Wallkill, then entered a protest against a chemical plant locating in the area and said a large number of taxpayers were present to protest the leasing of the airport to such a concern.

It was suggested the people opposed to the project stand up. Fourteen of the persons present stood up in protest. About an equal number in the audience remained seated.

At this point Haver arose and with considerable force said and with considerable force said: "We are not interested. We would not take it as a gift."

Haver said he wanted to add a note of regret that the people of the town of Shawangunk apparently did not want an industry there. He said the people were coming in with a "substantial payroll." He said the people who opposed had declined to hear the story of the company, did not know about the industry and "apparently don't want to know."

He suggested that out of courtesy to Menthe, he be given an audience and state his case. Terwilliger said he was not favoring or opposing the lease at this time. He wanted to hear the story. He said he did not want to see anything come to the area which would injure the locality or be a detriment to the town; his mind was open.

**Appears as Spokesman**  
Ernest Beusman, farmer and stock dealer, who resides near the airport and appeared as spokesman for the opposition, then asked Stang to answer questions. Among the questions he asked was the number of employees the concern would have, its reputation in Passaic and whether there were odors from the Passaic plant, whether the company was under the jurisdiction of the Passaic Board of Health.

Stang said he did not know about any odor, could not say how many employees would be in the plant and knew nothing of the health regulations in Passaic. He said he had checked the concern through a banking institution and made an investigation as to the worth of the company.

During this discussion Haver arose and said since the people of the area had evidenced a distaste for the company, Eastern corporations was withdrawing its lease and he suggested the hearing be adjourned. He said the company would manufacture no product from which there would be an odor, there would be no pollution of streams and he pointed out that company was now operating in Passaic which was a close area and he said the product to be manufactured in Shawangunk would not be the same as now being made in Passaic.

"We withdraw our offer as of now," concluded Haver. "We are not interested and I suggest you adjourn the hearing," concluded Haver.

Beusman said the people of the area would welcome an airport but objected to the manufacture of any chemicals in the area. At this point he stated that people in the area would be willing to submit offers.

Beusman said he would give \$500 a year, not as an airport but as a "hayport." Oscar Smith also offered \$500 a year "for the hay and as a pasture," and maintain the fence.

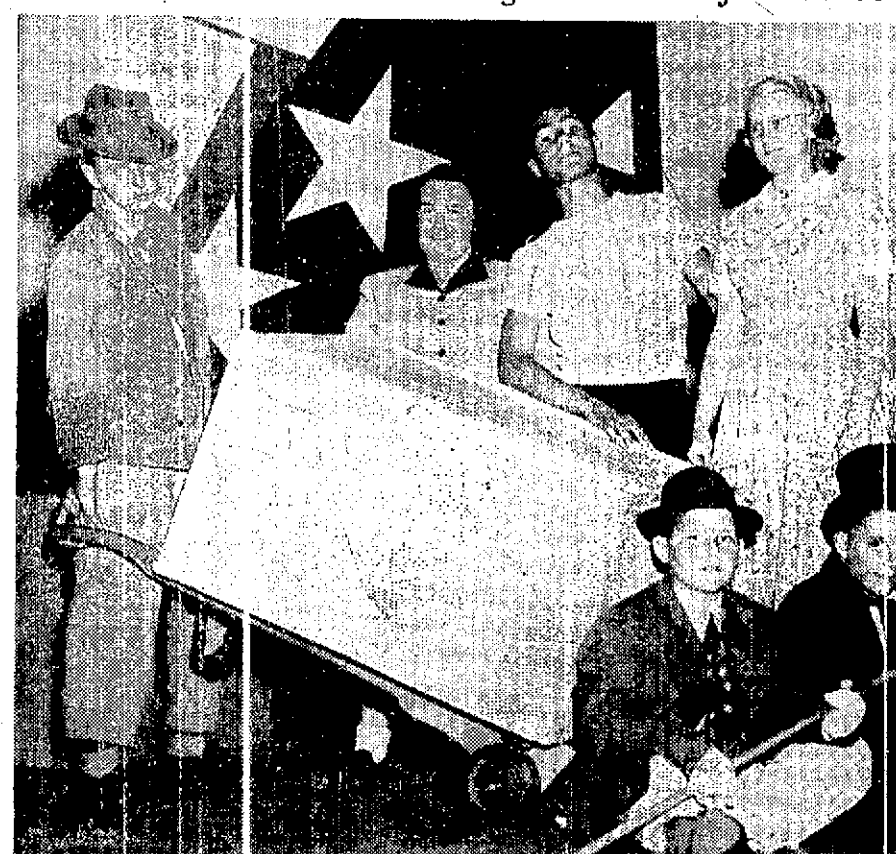

Stang said runways must be maintained under the lease and he stated offers should be made in writing. He also said any lease for the airport area must be approved by the C.A.A.

At this point the meeting became rather confused with several people talking. At one time while Beusman had the floor, Haver attempted to answer him and Beusman asked the question to instruct Haver to be seated. Chairman Schantz complied. With order restored by the chair the meeting proceeded.

**Says Rochester Willing**  
Supervisor Howard C. Anderson of Rochester said he felt sure if the people of Shawangunk did not want the eastern concern in their town would be delighted to have them come and he said he felt sure airport facilities as well as land for a plant could be readily secured.

Haver said the company had already investigated Rochester facilities. "Before they give up and move out of Ulster county I would like to have them look over our facilities. I hate to have Menthe move out of Ulster county so fast," said Anderson.

**Berlin Rift . . .**  
council was faced with three main problems:

1. Re-establishment of four-power control of the city, including a decision on what to control.  
2. Establishment of a unified city government—the city is now split between the eastern regime in the Soviet sector and a western regime in the American, British and French sectors.  
3. Settlement of problems arising from the city's twin currency system—the Soviet sector uses east German marks and the other three sectors west German marks.

## Compton Is Given 6 Months in Jail On Check Charge

John H. Compton, 41, who claims Saugerties as his residence, was sentenced to a six-month term in the Ulster county jail by Police Justice Ernest E. Schirmer of Saugerties this morning on a charge that he passed a worthless check in that village.

Compton, who the sheriff's department reported, is a former resident of Woodstock, was arrested by state police from the Lake Katrine sub-station Wednesday night.

The state police reported they acted on a complaint that Compton on March 18 issued a worthless check in the amount of \$100 to the B. H. Nelson Company, department store, in Saugerties.

Sentence was passed by Judge Schirmer following a trial without jury in Saugerties this morning. He was arraigned on a charge of violation of Section 1292-a of the Penal Law.

## Palmer Is Fined

The defense lawyer managed to give the jury a brief description of the papers not put in evidence. He did this by reading with Miller on the witness stand, an inventory of the items taken from Miss Coplon's purse.

Kelley said he did not object, since the sketchy information was not sufficient to "interfere with security." Kelley also told reporters that the mere use of a name did not necessarily mean that the person had been under investigation.

Miller spent all of yesterday on the stand and Palmer recalled him today for further questioning.

The government indictment alleges that Miss Coplon, 28, pilfered secrets from the Justice Department files with reason to believe the information would be used to aid a foreign power.

She and Gubitchev also face an espionage conspiracy charge in New York.

**Stanford Accepts Bid**  
New York, June 2 (AP)—Stanford's varsity crew has accepted a bid to compete in the Poughkeepsie Regatta on June 25. Asa Bushnell of the Eastern College

Athletic Conference said today. Stanford's acceptance increases the varsity field to 12, the largest number ever to compete. The California Indians have raced twice previously in the Poughkeepsie event, finishing second to Cornell in 1915 and sixth in 1912. Nine schools will be represented in the junior varsity event and 10 will have freshman crews. Other varsity boatloads are Columbia, Syracuse, Navy, Cornell, Pennsylvania, California, Washington, Massachusetts Institute of Technology, Princeton, Wisconsin and Rutgers.
